***Notice of Non-compliance with 37 CFR 1.1192(c)***

The appeal Brief filed on 01 September 1004 is defective for failure to comply with one or more provisions of 37 CFR 1.192(c).

Specifically, the appeal brief excludes the heading "Status of Amendments" as required by 37CFR 1.192(c).

The appeal brief also does not contain a statement of the status of all the claims, pending or cancelled. Specifically the appeal brief does not contain the status of cancelled claims 2, 6, 9-11, and 21 or withdrawn claims 24-28.

The appeal brief also does not contain a statement that claims do not stand and fall together. While the appeal brief contains a "grouping of claims," 37 CFR 1.192(c) requires that a statement be present that the claims do not stand and fall together if applicant believes some of the dependent claims are separately patentable.

The appeal brief's "summary of the invention" also does not refer to the specification by page and line number and to the drawings.

The "Issues" section of the appeal brief also is defective because it is not a concise statement. Applicant should not repeat the entire rejection. Applicant simply needs to notes the grounds of rejection.
